PROFILE INFO

As a beginner software developer, I am familiar with HTML, CSS, JavaScript, React, and Tailwind. I have experience working collaboratively with teams using Agile development methodologies. I am dedicated to producing high-quality, maintainable code that performs optimally. I am passionate about problem-solving and constantly seeking to learn and grow in my abilities.

EXPERIENCE

2022 - Present

Sellvation marketing B.V. | Galvanistraat 123

Intern Softwaredeveloper

At Sellvation marketing I've been responsible for creating, testing and deploying custom e-mails for clients using HTML, CSS and our EMS software CCMp. I also created reusable e-mail templates, designed new web pages and worked on new features to improve the user experience. Throughout this time I have gained valuable experience participating in Agile development methodologies to deliver high-quality software solutions.

2014 - Present

Cafeteria de Sluis | De Sluis 25

Operations Manager

- Streamlined operations and ensured timely preparation and delivery of shop and delivery orders, processing over 600 orders per week.
- Assisting managing a team of 10 employees, overseeing scheduling and training.
- Providing hands-on assistance to workers resulting into reduce in errors and improved productivity.
- Developed and launched a new website for the business in 2023.

EDUCATION

2019 - Present

Softwaredeveloper

MBO Utrecht

I currently study as a Softwaredeveloper at MBO Utrecht, where I'm gaining a strong foundation in programming languages such as HTML, CSS, JavaScript and PHP. My coursework includes studying database structures and management, normalization and projects learning Agile development methodologies. Next to my study I have started designing, developing and releasing my own portfolio and side projects such as a To-Do application and the website for Cafeteria de Sluis where I have put my foundation into practise and expanded it with frameworks such as Tailwind and libraries such as React.

2014 - 2017

Financial Administrative Employee

ROC A12
